Child Passenger Safety

### *The MACPS Hall of Fame announces Inductees Class of 2021*

**The Manufacturers Alliance for Child Passenger Safety (MACPS) is honored to announce the 2021 National Child Passenger Safety (CPS) Hall of Fame (HOF) Inductees.** According to the National Highway Traffic Safety Administration (NHTSA), motor vehicle crashes are one of the leading killers of children, and despite the reduced travel over the recent past, fatalities are on the rise. That number would be even larger if not for the tireless efforts of those who work in the field of child passenger safety.

CPS advocates come from all walks of life: vehicle manufacturers, car seat manufacturers, injury prevention programs, government agencies, first responders and even your neighbor who has a passion for child safety. The MACPS honors these individuals and preserves the history of these CPS activities each year with The Child Passenger Safety Hall of Fame award. The inductees are recognized and remembered for the indelible impressions they have left on the safety of their community and/or the nation. They are recommended and elected by the MACPS membership for their leadership in their field of design, manufacturing, education and/or advocacy.

All of these new inductees have made a genuine contribution to the reduction of childhood injuries and deaths as a result of motor vehicle crashes locally, regionally and/or nationally. Congratulations to ALL the nominees and inductees to the MACPS Hall of Fame for their hard, ground breaking work over the years. They have made a difference and still do!
